

In this modern era, many peoples in the world knows that the importance of education for they self. For that matter, consultant for education is present to help they in deciding university. So, eduNitas is one of the answers.

EduNitas is a consultant who help the matter of college student for deciding their university. In eduNitas, this company not only help the college student for deciding their university, but also help university to get a new student.

By cooperating with eduNitas, the university no need to pay for marketing services, because the marketing services is already provided in eduNitas. This feature is really profitable for university. Because if the university spend the cost for marketing services, it's needs a lot of cost.

By the marketing strategy in eduNitas, we help university partner to get a new college student.

Education is really important in this era. Many people want to study on best university in their country. To increase their knowledge, skills, moral value, and habits. University needs to increase their resource to keep their image in the community.

The university is should need to make sure their student pass on time. Because if its not, the university will downgrade their image. For the student should to motivated and study hard for pass on time.

Besides that, location of the university is the next consideration of new student. If the location is so far and not accessible to public facilities, don't be surprised if the student no want to register there. So, this problem is an option for university who want to build the building far from roadway.

If the university have a good reputation in the community. The university no need a big cost to marketing staff. But if the university is had a bad reputation in the community? Certainly, only a few people want to study there right? Even the university already spend much money for marketing fee.
